**POSEIDON® BARGE, LTD**  
**offers competitive**  
**pricing & friendly**  
**service.**

The Poseidon® P1 Portable Barge is easily transported from job to job on light weight step deck trailers.

Hauling 2-40' x 10' x 5' sections per truck saves time and money on every project!

POSEIDON® P1 BARGES are connected with a hairpin style connector pins allowing quick & easy assembly on the job with no additional tools. The P1 Barge does not have to be turned a certain way to connect to the next barge. All side and end castings are universal.

A single pick 25 ton shackle on the top center of the barge speeds the unloading and set up process.

**25 Ton Lifting Shackle**

External mount Spud Pockets can be located at any two connection points on the sides or ends of the barge. The roll formed patented top design U.S. D0807,9320 deck is rated at 25,000 psf; four times stronger than our competition. We require the use of wood mats to protect the deck surface.
